### Description

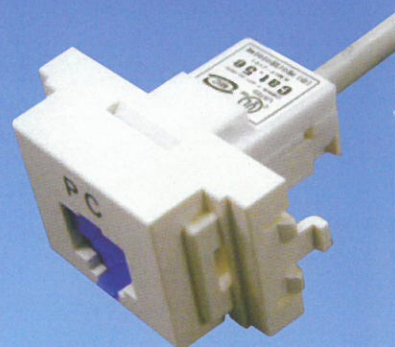

Cat.5e Modular jack is used for patch panel or equipment connections in data centers or telecommunication outlets, which require category 5e channel performance.

### Features & Benefits

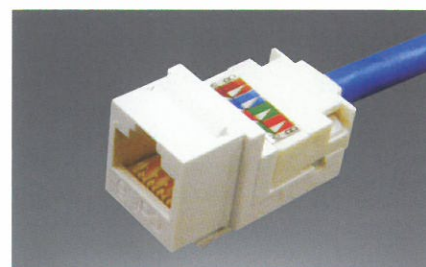

- **Fastest and easiest termination process** - Patented- 2-piece housing design provides faster, easy and less-error-prone cat.5e UTP installation, enabling Industry's fastest termination time in as little as 60sec.
- **Exceptional transmission performance** - Patented-PCB technology provides excellent crosstalk performance up to a minimum of 150MHz, and highest performance margins across all critical transmission parameters.
- **Superior Performance Consistency** - Patented-IDC termination technology ensures correct conductor placement and maintains cable pair symmetry to point of termination, which allows the amount of untwisting in a pair to be no greater than 7mm.(fully meet ANSI/TIA/EIA-568-A)
- **Robust mechanical design** - IDC termination is fully enclosed in the jack housing for providing protection from any dust and grime, and the housing features sturdy design for impact and vibration resistance.
- **Compact and simple profile** - The connected cable pairs are fully engaged into the housing and the cabling can not be seen from outside.
- **Color coding capability** - Color coded housing cap facilitates customer identification and ease network management.

### Applications

- Gigabit Ethernet
- 155Mbps ATM
- 100Mbps Ethernet
- 100Mbps T/TX
- 100Base-T, 10Base-T

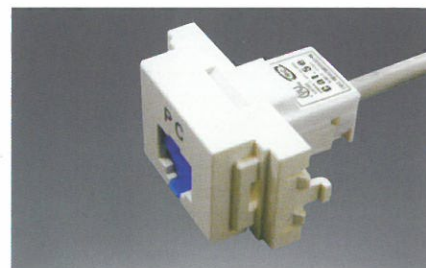

## Cat.5e Modular Jack

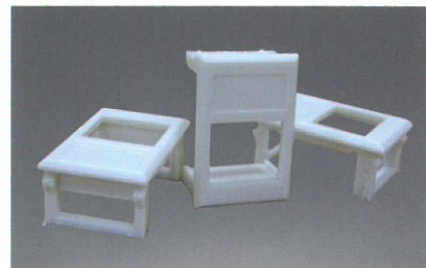

Cat.5e Modular Jack : ensures Fastest, Easiest, and Most reliable cat.5e UTP terminations with no punchdown tool... Every time

Order No.	Description	Color	Q' ty	Packing
MJ-J101-5e	Modular Jack 8P CAT.5e 568 A/B	White	200	Plastic bag
		Blue		
		Yellow		
		Green		

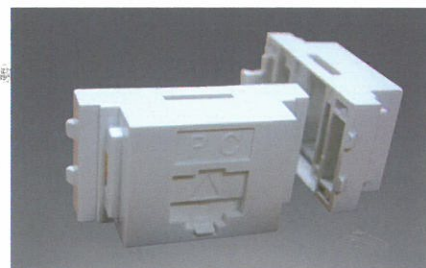

Cat.5e Rectangular Modular Jack : can be mounted in any modular face-plate specified with JIS or other international standards

Order No.	Description	Color	Q' ty	Packing
MJ-R101-5e	Modular Jack 8P CAT.5e 568 A/B	White	50	Plastic bag
		Blue		
		Yellow		
		Green		

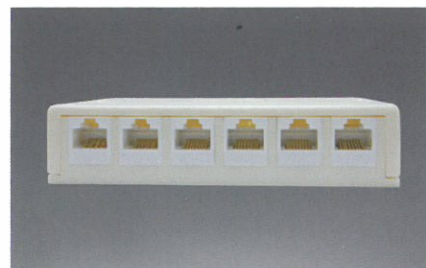

Standard modular adapter : for use in surface mount boxes and patch panels specified with JIS or other international standards

Order No.	Description	Color	Q' ty	Packing
MJ-SG501	Standard Modular Adapter	White	100	Plastic bag
		Blue		
		Yellow		
		Green		

Rectangular modular adapter: for use in surface mount boxes and patch panels specified with JIS or other international standards

Order No.	Description	Color	Q' ty	Packing
MJ-RMA	Rectangular Modular Adapter	on request	100	Plastic bag

Multitap modular adapter: for use in surface mount boxes and multimedia bezels specified with JIS or other international standards

Order No.	Description	Color	Q' ty	Packing
MJ-SMB6	Multitap Modular Adapter, 6ports	Beige	2	Plastic bag
